Notes to the financial statements As at June 30, 2021

1. General

(TLF) is a mutual investment fund ("fonds commun de placement") organized under Part I of the Luxembourg law of 17 December 2010 on undertakings for collective investment (the "2010 Law").

The Fund is managed by Eurobank Fund Management Company (Luxembourg) S.A. (the "Management Company"), a company incorporated under the laws of Luxembourg and having its registered office in Luxembourg.

The Management Company may issue Units in several classes (collectively "Classes" and each a "Class") in each Sub-Fund having: (i) a specific sales and redemption charge structure and/or (ii) a specific management or advisory fee structure and/or (iii) different distribution, Unitholder servicing or other fees and/or (iv) different types of targeted investors or distribution channel and/or (v) a different hedging structure and/or (vi) such other features as may be determined by the Board of Directors from time to time.

As at June 30, 2020 1 sub-fund is active. The active classes of units are as follows:

Sub-Funds - Classes of Units	Launched Date
(TLF) Global Balanced Fund - Asset Wise A	01/12/2017
(TLF) Global Balanced Fund - Asset Wise B	01/12/2017

2. Summary of significant accounting policies

The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investments.

a) Basis of presentation of the financial statements

The financial statements of each Sub-Fund are kept in the following currency:

(TLF) Global Balanced Fund	EUR
----------------------------	-----

The combined financial statements of the Fund reflecting the assets and liabilities of all portfolios are expressed in Euro.

b) Security Valuation

Securities quoted or dealt in on any stock exchange or another regulated market are valued at the latest available price.

2. Summary of significant accounting policies (continued)

When such prices are not representative of the fair value of the relevant securities and in the case of unquoted securities, the valuation is based on the respective reasonable foreseeable sales price as determined prudently and in good faith by the Board of Directors of the Management Company of the Fund.

Where practice allows, liquid assets, money market instruments and all other instruments such as those with interest rates adjusted at least annually based on market conditions, may be valued at nominal value plus any accrued interest or an amortized cost basis. If the method of valuation on an amortized cost basis is used, the portfolio holdings will be reviewed from time to time under the direction of the Board of Directors to determine whether a deviation exists between the net assets calculated using market quotations and that calculated on an amortized cost basis.

If a deviation exists which may result in a material dilution or other unfair result to Unitholders, appropriate corrective action will be taken including, if necessary, the calculation of the Net Asset Value by using available market quotations.

Investments in open-ended UCIs are valued on the basis of the last available NAV of the units or shares of such UCIs.

c) Foreign currency translation

The cost of investments and the transactions during the year/period, expressed in foreign currencies, are converted into the reporting currency of each Sub-Fund at the rate of exchange ruling at the time of the purchase or transaction.

The market value of investments and other assets and other liabilities, expressed in foreign currencies, are translated into the reporting currency of each Sub-Fund at end of period exchange rates. Exchange differences arising on foreign currency translation are taken to statements of operations of the Annual report.

Closing exchange rates as at June 30, 2021 relating to EUR is:

1 USD = 0.8415 EUR

d) Interest and Dividend income

Interest income is recognised on an accrual basis, net of any irrecoverable withholding tax. Dividends are recorded on an ex-dividend basis, net of any irrecoverable withholding tax. Withholding taxes are however recorded on a dedicated expense account.

e) Formation expenses

The costs and expenses of the formation of the Fund and the initial issue of its Units are being amortised over a period not exceeding five years.

2. Summary of significant accounting policies (continued)

f) Valuation of financial futures contracts

Upon entering into a futures contract, the Fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account.

The value of futures contracts that are traded on stock exchange is based on the closing prices published by the stock exchange where the company has concluded the related contracts. The value of futures contracts that are not traded on stock exchange is determined according to the guidelines decided by the Board of Directors of the Management Company, following uniform criteria for each type of contract.

The unrealised appreciation/(depreciation) on future contracts is disclosed in the statement of net assets under "Unrealised gain/loss on financial futures". Changes in the market value of open futures contracts are recorded as unrealised appreciation/(depreciation) in the statement of operations of the Annual report under "Change in net unrealised appreciation/(depreciation) on financial futures". Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations of the Annual report under "Net realised gains/(losses) on financial futures". Securities deposited as initial margin account are designated in the schedule of investments and cash deposited is recorded on the statement of net assets. A receivable and/or a payable to brokers for the daily variation margin is also recorded on the statement of net assets.

g) Realised gains and losses on sales of investments in securities

Investments in securities are accounted for on a trade date basis. Realised gains and losses on sales of investments in securities are based on the average cost basis.

h) Swing pricing

A Sub-Fund may suffer dilution of the net asset value per unit due to investors buying or selling shares in a Sub-Fund at a price that does not reflect dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact, a swing pricing mechanism has been adopted to protect the interests of unitholders of the Sub-Funds. If on any valuation date, the aggregate net capital activity of a Sub-Fund exceeds a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Board of Directors of the Fund, the net asset value per unit will be adjusted upwards or downwards to reflect costs associated with the net capital outflows respectively.

Since the dilution adjustment for each Sub-Fund will be calculated by reference to the costs of dealing in the underlying investments of that Sub-Fund, including any dealing spreads, which can vary with market conditions, the amount of the dilution adjustment can vary over time. Nevertheless, it will not exceed 2% of the relevant Net Asset Value per Unit of each Class, or the relevant published annual Total Expense Ratio (TER).

As at June 30, 2021, no adjustment was made.

3. Management fees

Management fees are due by each Sub-Fund and are calculated daily based on the net assets of each class of Units during the month and are payable monthly.

As at June 30, 2021 the following effective rates are applicable per annum:

(TLF) Global Balanced Fund - Asset Wise A	1.75%
(TLF) Global Balanced Fund - Asset Wise B	0.75%

The Management Company shall pay, out of the Management Fee the fees and expenses:

11. Events during the year

The first half of the year has been marked by the ongoing effects of the COVID-19 pandemic. The response from governments and central banks continued to be supportive and inflation risks emerged taking a significant toll on bond markets during the first quarter of the year. Uncertainty regarding new COVID-19 variants, inflation expectations and duration and direction of future policy responses continue to affect equity and bond markets and could potentially negatively impact the Fund's performance. The Board of Directors monitors the situation; but in any case developments are not expected to raise any going concern issues of the Fund.
