What is this product?

Type: ERB Funds VCIC PLC is an open-ended type investment company with variable capital registered and incorporated in Cyprus and constituted, pursuant to its Articles, for an unlimited period of time and is authorized by the Cyprus Securities and Exchange Commission ("CySEC") as an Undertaking for Collective Investment in Transferable Securities ("UCITS") with multiple sub-funds in accordance with the UCI Law 78(I)/ 2012, as amended from time to time.

Term: The Sub-Fund has been established for an unlimited period of time and is terminated in case any of the conditions referred to UCI Law 78(1) 2012.

Objectives: The Sub-Fund aims to provide investors with consistent absolute returns primarily through investing in fixed income securities, money market instruments and bank deposits (principally denominated in Euro or other currencies linked to the Euro).

The Sub-Fund invests at least 55% of its total assets in fixed income securities and at least 10% in bank deposits. These include bonds and money market instruments with short term maturities and duration typically less than five years. The fixed income securities may be issued by governments, governmental agencies, companies and supranationals. Duration is a measure of the average time it takes the Fund to get its return (both capital and income) on the investments it holds. The average duration (which is duration adjusted for the proportion in which the Fund holds each investment) is not expected to exceed a five year period.

Based on the average valuation of the assets, the percentage of Sub-Fund assets invested in fixed income securities and deposits must be within the range of (i) Fixed income securities: 55%-100%, and (ii) Bank deposits: 0%-45%.

For the purpose of managing risk exposure, the Sub-Fund may use investment techniques which may include the use of financial derivative instruments to protect the value of the Fund, in whole or part, or enable the Sub-Fund to profit from changes in currency exchange rates against the base currency of the Sub-Fund.

Any income or dividends which may result from the Sub-Fund's investment activities will be re-invested into the Fund and will not be distributed to any investor.

Class A Shares are denominated in Euro, the base currency in which an investor (prospective or existing) can purchase and sell the aforementioned shares on demand.

Investors can redeem their Shares on demand. Investors can buy or redeem Shares in this Fund on any normal Business day as defined in the Prospectus of the ERB Funds VCIC PLC. This product does not have the objective of sustainable investment or binding environmental or social characteristics as defined by Regulation (EU) 2019/2088 on Sustainability-related Disclosures in the Financial Services Sector (the "SFDR"). The Sub-Fund is actively managed which means that the investment manager is actively making investment decisions for the Sub-Fund. The Sub-Fund is not managed in reference to a benchmark.

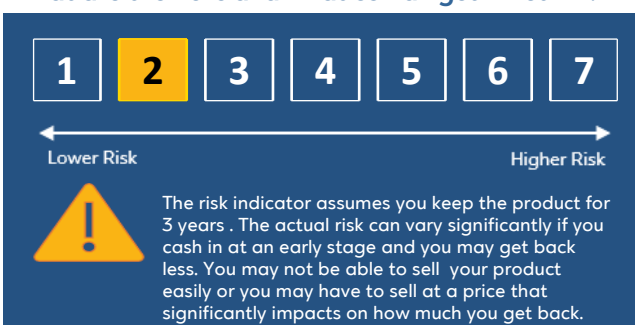

The minimum initial investment is 1,000 Euro.

For full investment objectives and policy details please refer to the prospectus.

Depository: Eurobank Cyprus Ltd

Intended retail investor: Is addressed to investors with a medium-long horizon seeking professional management of their money with immediate liquidity and low costs, aiming for capital gains through their participation in a diversified portfolio appropriate to investment objective of the product, while at the same time they are familiar with the possible loss part of their capital.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The Product is classified in the specific category because its share price may have small/negligible fluctuations comparative to higher categories classifications. The likelihood of bigger losses or gains is small and poor market conditions are unlikely to impact the capacity of the Fund to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Not all risks affecting the Sub-Fund are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, these includes: Interest rate, credit and currency risks and, when relevant,

risks associated with the use of financial derivatives. Beside the risks included in the risk indicator, other risks may affect the Fund performance. Please refer to the 'Risk factors' section of the prospectus of the Fund.

What happens if Eurobank Asset Management M.F.M.C. is unable to payout?

The assets of the Fund constitute independent assets, distinct in all respects from the assets of the Management Company. The assets are kept by its Depositary, "Eurobank Cyprus Ltd". In case of insolvency of the Management Company, the assets of the UCITS, the safekeeping of which has been assigned to the custodian, will not be affected. There is no compensation or guarantee scheme in place which may offset all or any such loss.

What are the costs?

The person who provides you with investment advice on this product or sells it to you in the context of providing investment services may charge you other costs. If this happens, they will give you information about this cost and how it affects your investment

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
